Since 1976 Empire Industries has had a tradition of providing top quality kitchen and bath products for the most discriminating customer. With distribution facilities in New Jersey and California, we provide not only great products, but also great service, with quick delivery at reduced freight costs. We also offer special designs to customer specifications for projects.

Our kitchen sink collections range from traditional to transitional to contemporary, so no matter what your style, you will find the perfect sink to be the centerpiece of your new kitchen.

Our fine fireclay kitchen sinks are hand crafted in the old English tradition of solid casting, making them stronger than hollow casting. Using the finest raw materials and fired at 2300 degrees F for 20 hours, our fireclay sinks are made to last. They are both beautiful and extremely durable – resistant to chips, scratches and stains, with a smooth easy to clean surface. They are glazed on all 4 sides and are reversible, so you can choose from a decorative side or a smooth finish.

Empire's stainless steel collections offer virtually any shape, style and size. Each sink is constructed of premium grade T-304 stainless steel in a beautiful satin finish. All our sinks are undercoated on all sides, and the large rubber pads provide the ultimate in noise reduction. They are non-porous and rust free, and will last a lifetime.

PEEK!**

Titan Sinks

**MADE FROM QUARTZ: NONPOROUS,
RESISTS STAINS, SCRATCHES AND CHIPS**

The newest EMPIRE sink collection is coming soon - in Black and Rich Chocolate! Our durable Titan Quartz composite is made from 80% real quartz, and is virtually indestructible. Its beautiful smooth finish is easy to clean, and can even stand up to harsh liquid cleansers. Stain-proof, scratch resistant, and colorfast, this sink will be a beautiful addition to your kitchen.

Maintenance & Warranty

PREMIUM QUALITY KITCHEN AND BATHROOM SINKS

Limited Lifetime Warranty

- **EMPIRE** warrants the original purchaser a lifetime of normal residential use.
- **EMPIRE** will replace the sink if it fails due to manufacturing defect.
- **EMPIRE** will not be responsible for cost of transportation, labor or installation.
- **EMPIRE** reserves the right to examine the product, installed, prior to replacement.
- This warranty applies only to original installation location.
- This warranty does not cover damages caused by physical abuse or damage from excessive heat.

General Care & Cleaning

EMPIRE strongly recommends the use of our grids to protect the bottom of your sink. Rinse the sink with warm water and dry it with a soft cloth after each use. This will prevent water spots and mineral deposits, and keep your sink looking new.

Fireclay

Because fire clay sinks are rust-proof, stain-proof and nonporous, they require little maintenance. If you have a stubborn stain from food or other residue, apply baking soda or a mild abrasive to a damp sponge and rub. Mild abrasives will not harm our fire clay sinks.

Stainless Steel

Our stainless steel sinks are made of 304 stainless 18/8 chrome nickel content. They are nonporous and will not rust. If your sink develops surface stains and rust spots from food or other residue, use Bar Keepers Friend or Flitz stainless steel cleaners (available from your local hardware store or supermarket). Always rub with the grain. If you have a deeper scratch, use a pumice rubbing compound and follow directions on the package.
